## Crochet a Snow Storm of Snowflakes

crocheted flower from pattern by Carole Terwilliger Meyers

This is a very easy crochet pattern. I consider this one

seasonal and make them fall through winter. As with my other little crochet projects, I indulge during down time when visiting my grandchildren and leave the finished snowflakes behind for them to find as they will and hopefully trigger memories of Grandma. I did discover that kitties really enjoy these snowflakes, too.

Working into the 6 spaces you just created, begin with a sl st into the first space to the left of your hook.

Ch 3 + sl st into same space.

**end**

Ch 1, sl st into the first sl st of this round. To end, either bind off, or ch 10 and then sl st again to make a loop for hanging.
